

Ohio Suicide Reporting Checklist

Responsible reporting on suicide has the power to save lives. How you shape a story — the details given, words used and resources provided — will minimize suicide contagion and instill hope to vulnerable individuals.

Before submitting your story on a suicide death, did you:

- Use preferred language? (e.g., “died by suicide” or “took his/her own life;” not “committed suicide”)
- Use objective, non-sensationalistic language to describe the suicide death?
- Exclude details about method, location, notes or photos from the scene?
- Focus on the life of the person versus the death and method?
- Frame suicide as a preventable form of death?
- Indicate that suicide is always caused by multiple factors?
- Convey that suicidal thoughts and behaviors are not weaknesses or flaws and can be reduced with support and treatment?
