# WHY IS MEDICATION DISPOSAL IMPORTANT?

Did you know that **two out of five** people who misuse pain relievers say they got them from family or friends?

To help prevent against addiction or accidental harm, it's important to properly dispose of all medications you don't need anymore. This helps protect your family.

## *Drug Disposal*

### DO

- ✓ Regularly clean out your medicine cabinet
- ✓ Model responsible medicine use and talk with young people about medication safety
- ✓ Keep pills in their original packaging when using the disposal boxes
- ✓ Remove or black out personal information before disposal

### DON'T

- ✗ Keep unwanted/expired medications
- ✗ Flush medicine down the toilet or sink - this is hazardous
- ✗ Put loose pills in the disposal boxes
- ✗ Put needles or other sharps, inhalers, aerosol cans, thermometers, or trash in the disposal boxes. (Liquids accepted at some locations. See back.)
